

Cooper

Age: 9

Location: Virginia

Diagnoses: Mixed Receptive and Expressive Language Disorder, ADHD

Protocol

Cooper worked for 30 minutes per day, 5 days per week, for 12 months. He completed Fast ForWord Language, Language to Reading, and Reading 2, 3 and 4. Cooper recently started Reading 5.

Results

Cooper is now receiving grades that match the effort he has always put forth. He is talkative and enjoys communicating with others.

Cooper was diagnosed with receptive-expressive language disorder. He hears information at a different rate than other children. This affected his progress in school, his social interactions, and even his self-esteem. Reading comprehension was his biggest challenge.

Cooper was unable to pass the state reading test for third grade, after two attempts, and was required to attend summer school. His reading level actually declined over the brief summer session, prompting his mother to seek advice and interventions. A specialist recommended Fast ForWord. He began his program during summer break.

Cooper found the program exercises fun. He was extremely motivated and willing to put in the work. He loved the online rewards system and looked forward to his monthly points. After only a month of working with Gemm Learning, his mother said, "It was like a light bulb going off. Things just started to turn." By the time Cooper started school in the fall, his teacher observed that he was participating in small groups, raising his hand, and more confident.

"It's like watching a flower blossom. He's changed so much." - Cooper's mother

Cooper's reading grades eventually went from C's and D's to A's and B's. The once *quiet boy* is now helping other children find Bible passages in Sunday school and chatting with children all over the world while playing Wii U. "It's like watching a flower blossom." His mom said. "He's changed so much." She credited the Fast ForWord program for helping Cooper and continued, "I would hands down recommend it. It's definitely worth the money to see the positive changes in your child."
